# Visit the Phenomenex Website to Find the right product for your application

Develop an SPE method. Find the right HPLC column and guard system or the perfect vials and syringe filters for your application. Optimize your HPLC methods in minutes with our easy-to-use interactive tools, developed by scientists for scientists. We designed these tools to help you get your work done faster.

# WWW.PHENOMENEX.COM/TooLS

# **Application Structure Search**

Immediately find key HPLC, GC, and Sample Prep applications for small molecules and biomolecules by drawing the structure or the functional groups of the analyte.

## **GC Column Finder Web Tool**

GC column selection, simplified! Choose from 5 easy ways to quickly find a Zebron™ column for your method in minutes.

# **Application Name Search**

Find key HPLC, GC, and Sample Prep applications for small molecules and biomolecules by entering the name or synonym of the analyte.

## **GC Liner Finder**

Find a liner by part number, geometry, sample type, or application in under a minute.

## Vial Finder

Easily find the right vial or vial kit for your sample collection needs. Whether you are looking for an amber vial, crimp-top vial, autosampler vial, or headspace vial, you will be sure to find it with the Vial Finder tool.

## SPE Method Development Tool

Develop Solid Phase Extraction (SPE) methods for sample cleanup and concentration in under a minute.

## Syringe Filter Finder

3-step tool designed to help you find the appropriate syringe filter to help you successfully remove particulates from your sample matrix.

## **Scale-Up Calculator**

Quickly and easily scale up your analytical column to preparative dimensions.

Chaf now!
